SUMMARY

As a dedicated Data Analyst, I possess comprehensive skills in Data Science, Full Stack Development, and Machine Learning. With proficiency in Python, C++, and SQL, I excel at executing complex programming tasks and developing analytics-driven solutions. My experience includes leading multimedia editing projects and applying advanced statistical analysis to enhance industrial automation. I thrive in demanding environments and am passionate about driving technical initiatives

EXPERIENCE

Professional Editor

Tech Vaseegrah

01/2024 - Present Thanjavur

Company specializing in digital content creation and multimedia editing

- Led multimedia editing workflows utilizing Adobe Premiere Pro, After Effects, and Photoshop to deliver high-quality digital content for 20+ projects
- Improved content production quality by 30% through the implementation of standardized asset management and advanced post-production techniques

In-Plant Training / Internship

Prag Robotics Pvt. Ltd

06/2023 - 08/2023 Chennai

A company focusing on robotics and data science solutions

- Applied statistical analysis and machine learning techniques to optimize data-driven solutions for industrial automation tasks
- Contributed to collaborative programming projects, leveraging version control to enhance technical workflow proficiency and team productivity in a robotics environment

EDUCATION

B.Sc. Data Science

Periyar Maniammai Institute of Science and Technology (PMIST)

08/2023 - 05/2026 Thanjavur

PROJECTS

Analysis of Indian Kids' Average Screen Time

01/2023 - 02/2023

Project analyzing average screen time of Indian kids

- Executed end-to-end data science lifecycle: cleaning, feature engineering, and model testing
- Built predictive models to analyze behavioral patterns and created interactive data visualizations

E-commerce Insights & Management Systems

03/2023 - 04/2023

Project focused on insights and management for e-commerce systems

- Utilized web scraping and SQL to derive actionable business insights
- Optimized data-driven innovations

STRENGTHS

Competitive Programming

Strong analytical mindset focused on code efficiency

Leadership

Experienced in organizing technical seminars and managing department tech events

Adaptability

Proven ability to learn and apply emerging technologies quickly

SKILLS

R	Python	C/C++	SQL
Adobe Premiere		Adobe After Effects	
Photoshop	Robotics	Web Scraping	
Microsoft Power BI		MATLAB
